Abstract — maximum 400–500 words

Provide a clear, concise summary describing the background or purpose, methodology or approach, key findings or results, and the significance or implications of the work.

Write in clear, professional English. The abstract should be self-contained and understandable without the full paper. Avoid unnecessary jargon, citations, tables, figures and references unless the organizers request them.

Keywords

Provide 3–5 relevant keywords, separated by commas.

Example: Artificial Intelligence, Machine Learning, Deep Learning, Healthcare, Data Analytics

Biography — 200–250 words

A brief professional biography covering your current position, background, research interests, expertise, major achievements and publications.

Professional Photograph

Upload a recent, high-resolution professional headshot (JPG or PNG) on the submission form.

It may be used on the conference website, your speaker profile, the conference programme and promotional materials.
